

## WORKING SPRINGS\* MACHINE mod. PRL 80

\*

### COMPOSITION :

- ① **Introducing guide**  
- adjustable according to the width of spring band
- ② **Band guiding and measuring group**  
- motor in c.a. with electronic control by inverter.
- ③ **Bending unit**  
- motor in c.a. with rotative encoder.
- ④ **Cutting and punching unit**  
- hydraulic station including shaping for pipe junction.
- ⑤ **Programmer type « EC 609 VIDEO » with control of :**  
- cutting length.  
- bending degrees according to the hardness of the spring.  
- punching.  
- width and thickness  
- French – Italian – English language.
